

Before the
FEDERAL COMMUNICATIONS COMMISSION
Washington, D.C. 20554

In the Matter of:)
)
Carriage of Digital Television Broadcast Signals:) CS Docket No. 98-120
Amendments to Part 76 of the Commission's Rules)

TO THE COMMISSION

AMENDMENT TO PETITION FOR PARTIAL FURTHER RECONSIDERATION

The Petition for Partial Further Reconsideration ("Petition"), timely filed earlier this date by the Minority Media and Telecommunications Council ("MMTC"), is respectfully amended to reflect that the Hispanic Technology and Telecommunications Partnership ("HTTP") has joined in the Petition as a co-petitioner with MMTC. HTTP, the largest coalition of national and regional Hispanic organizations, represents the interests of 44 million Americans of Hispanic descent on technology and telecommunications issues, including the 40% of Hispanic households who rely exclusively on over-the-air broadcast television for news, information and entertainment. Like MMTC, HTTP participated previously in ex parte meetings in this docket with commissioners and staff.

Respectfully submitted,

David Honig
